Holmatro Industrial Announces Engineered Rigging as First Business Partner in USA

VALPARAISO, IND., February 15, 2024 — Today Engineered Rigging announced a partnership with Holmatro, a global innovator of high-pressure hydraulic equipment, to exclusively rent and sell products from the company’s industrial line of equipment. With more than 55 years of experience, the Netherlands-based Holmatro is a leader in its field.

“By coupling Engineered Rigging’s extensive engineering and heavy lifting expertise with Holmatro’s industrial hydraulic solutions, we can provide our clients with even more options to overcome heavy lifting and specialized transport challenges,” shared Christopher Cox, PE, founder and president of Engineered Rigging.

Holmatro’s logo may be familiar to Indy 500 race fans as it appears on the [INDYCAR Safety Team](#) members’ fire suits, vehicles and transporters. Holmatro’s Rescue Division has supported the INDYCAR Safety Team since 1991 by supplying rescue tools to assist in the quick and safe extrication of race car drivers following an on-track incident.

“We are thrilled to forge a partnership with Engineered Rigging that will make Holmatro Industrial’s tools & systems available for rental across the United States,” shared Ben van der Knaap, managing director of Holmatro Industrial Equipment.

Shipments of Holmatro’s 200-ton Lightweight Skidding System, Ring Climbing Cylinders and Dynamic Testing System will be delivered to Engineered Rigging’s Arkansas fabrication facility and equipment yard this spring.

About Engineered Rigging

Engineered Rigging (ER) is a global innovator in heavy lifting. By leveraging decades of experience and technical expertise, Engineered Rigging overcomes the most complex logistical challenges for a variety of industries. The company provides engineering services, design-build solutions and heavy lifting and specialized transport equipment rental, sales, service and technical support.
