## **Engineered Rigging Receives First Enerpac SBL600 Hydraulic Gantry in USA**

**VALPARAISO, IND., February 20, 2024** — Engineered Rigging, the heavy lifting experts, accepted the first delivery in the USA of the Enerpac Super Boom Lift SBL600 Hydraulic Gantry. With a 674-ton lifting capacity, this powerful, heavy-duty lifting solution features a foldable, rectangular boom and three-stage telescopic hydraulic cylinder which provides increased load capacity and lifting height, as well as easy transport and setup.

The system's wireless Intelli-Lift controls provide automatic synchronous lifting and lowering, along with travel and side shift control. Built-in load holding valves prevent drifting, and steel wheels load optimize load distribution.

“Engineered Rigging is thrilled to be the first to bring the Enerpac SBL600 to the United States,” stated Mike Beres, vice president of Engineered Rigging.

In addition to this arrival, Engineered Rigging sells all models of Enerpac hydraulic gantries and has a rental fleet of select models, gantry skid tracks and a variety of [gantry accessories](#).

## **About Engineered Rigging**

Engineered Rigging (ER) is a global innovator in heavy lifting. By leveraging decades of experience and technical expertise, Engineered Rigging overcomes the most complex logistical challenges for a variety of industries. The company provides engineering services, design-build solutions and heavy lifting and specialized transport equipment rental, sales, service and technical support.
