Engineered Rigging Promotes Mike Beres to Vice President

VALPARAISO, IND., February 28, 2024 — Engineered Rigging, a leader in heavy lifting equipment rental and engineering, has promoted Mike Beres to vice president. With more than 25 years of experience and a passion for the heavy lift and specialized transport business, Beres has extensive industry knowledge and practical experience. In his new

role, Beres will oversee Engineered Rigging's sales and operations while developing customer engagement and vendor relationships.

"Mike has made a significant impact at Engineered Rigging during the past three years," said Christopher E. Cox, P.E., founder and president of Engineered Rigging. "In this leadership role, Mike will help accelerate our company's growth and elevate the customer experience."

Beres' prior experience includes 20 years working at Enerpac. He is also a military veteran, having served in the U.S. Marines Corps.

About Engineered Rigging

Engineered Rigging is a global innovator in heavy lifting. By leveraging decades of experience and a wealth of technical expertise, Engineered Rigging overcomes the most complex logistical challenges for a variety of industries. The company provides equipment rental, sales and service; engineering services; custom solutions and technical support. For more information, visit www.EngineeredRiggingGroup.com.
